

THE AGENCY 7

GLOBAL CONSULTANCY

WEBSITE STRATEGY & CONTENT BRIEF

Your Strategic Partner in the UAE

Prepared as the strategic foundation for website design, copy, UX and development.

1. Website Objective

Create a premium, modern, international and highly professional website for **The Agency 7 Global Consultancy FZ-LLC**. The website should position Agency Seven as a boutique strategic consultancy and trusted UAE business partner - not as a traditional PRO, visa or low-cost company-formation provider.

Core message

We help entrepreneurs and international companies understand the UAE market, identify opportunities, develop projects, create market strategies and build the right commercial connections.

2. Brand Positioning

Main positioning: Your Strategic Partner in the UAE

Supporting statement: Business Strategy. Projects. Marketing. Commercial Connections.

Agency Seven acts as a bridge between international businesses and the UAE market, combining local knowledge, strategic consulting, project coordination, marketing expertise and a trusted professional network.

3. Target Audience

International entrepreneurs; European and Italian companies entering or expanding in the UAE; existing UAE businesses exploring new opportunities; investors and entrepreneurs developing projects or partnerships; hospitality and F&B; entrepreneurs; and companies requiring UAE market positioning, project coordination or commercial introductions.

4. Brand & Design Direction

**Premium - Minimal - International - Elegant - Confident -
Contemporary - Human**

Avoid excessive corporate language, dense paragraphs and generic stock-consultancy presentation. Visitors should understand within 5-10 seconds what Agency Seven does, who it helps, why the UAE matters, why Agency Seven is different, and how to start a conversation.

Use strong UAE business and city imagery without making the site resemble a real-estate portal or tourism website. Prioritize clean typography, generous white space, subtle animation, strong mobile UX and clear calls to action.

5. Recommended Website Architecture

PAGE	PURPOSE
Home	Immediate positioning, opportunity, core services, trust and CTA.
About	Founder story, UAE experience, approach and international perspective.
Services	Clear presentation of licensed consultancy and commercial capabilities.
Why UAE	Explain the UAE opportunity in a concise, business-focused way.
UAE <-> Europe	Position Agency Seven as a bridge between markets.
Contact	Simple project enquiry and conversation-starting form.

6. Homepage Copy

Hero

THE AGENCY 7

Your Strategic Partner in the UAE

Turning opportunities into businesses, projects and lasting connections.

We help entrepreneurs and international companies navigate the UAE market through strategic consulting, project management, marketing and commercial connections.

Primary CTA: DISCUSS YOUR PROJECT **Secondary CTA:** SPEAK WITH US

Why the UAE?

A global platform for business, investment and growth. The UAE has become one of the world's most dynamic environments for entrepreneurs and international companies. Agency Seven helps clients understand the market, identify opportunities and develop the right strategy for entering or expanding within the UAE.

7. Core Services

Business & Market Entry Consulting

Market assessment | Opportunity analysis | Business strategy | Market-entry planning | UAE business orientation | Expansion strategy

Project Management Consultancy

Project planning | Coordination | Supplier coordination | Partner coordination | Development support | Execution oversight

Marketing & Market Strategy

Market research | Competitive analysis | Positioning | Go-to-market strategy | Marketing management | Brand strategy | Digital strategy

Commercial Connections

Business matching | Commercial introductions | Partner identification | Supplier connections | Opportunity sourcing

Hospitality & F&B;

Project development | Supplier coordination | Commercial-kitchen requirements | Equipment sourcing

8. The Agency Seven Approach

DISCOVER - Understand the client's objectives and the opportunity.

ASSESS - Evaluate the market, requirements and potential strategy.

CONNECT - Identify relevant partners, suppliers, specialists and commercial connections.

COORDINATE - Support the project and coordinate the different parties involved.

GROW - Continue supporting clients as their business develops in the UAE.

9. UAE <-> Europe

Connecting Markets. Creating Opportunities.

Agency Seven acts as a business bridge between the UAE and Europe, helping international companies better understand and access opportunities in the Emirates. For European companies entering the UAE, we provide local market insight, strategic guidance and coordination. For UAE businesses exploring European products, suppliers or partnerships, we can support commercial connections and project development.

Two markets. One strategic connection.

10. Founder Positioning

Laura Ciobanu - Founder & Managing Director

Agency Seven should make the founder visible as part of the brand. The narrative should emphasize long-standing UAE professional and entrepreneurial experience, international perspective, a hands-on approach and the ability to bring the right people and expertise together.

Understand the opportunity. Connect the right people. Create the strategy. Make it happen.

11. Why Agency Seven?

UAE Market Experience - Practical knowledge of the Emirates.

International Understanding - A bridge between European expectations and the UAE business environment.

One Point of Contact - Coordination across the people involved in a project.

Trusted Network - Access to specialists, suppliers, companies and professional partners.

Tailored Strategy - Every client and project is different.

Hands-On Approach - Support beyond the initial introduction.

12. Professional Network & Compliance

Where a project requires specialist services outside Agency Seven's direct licensed activities, the website should state that Agency Seven can coordinate clients with independent, appropriately qualified or licensed professionals. Do not imply that Agency Seven itself is a law firm, accounting firm, regulated financial adviser, real-estate brokerage, immigration consultancy or PRO provider unless the corresponding activity or approval is separately confirmed.

13. Final Call to Action

Your UAE Opportunity Starts With a Conversation.

Whether you are exploring the UAE for the first time, expanding an existing company or developing a new project, Agency Seven can help you understand the opportunity and determine the next steps.

CTA: START THE CONVERSATION

Suggested form: Name | Company | Country | Email / WhatsApp | Area of Interest | Tell us briefly about your project

14. Instructions to the Website Agency

Use this brief as the strategic foundation for The Agency 7 website. The website must be premium, modern, minimal, international and extremely easy to understand. Avoid generic consultancy language, complicated terminology and excessive text. Agency Seven should not be positioned primarily as a company-formation, visa, Golden Visa or PRO-services company. Position it at a higher level: a boutique UAE business, project and market consultancy.

The founder and her UAE experience should be an important part of the brand. Create strong visual hierarchy, short sections, clear CTAs, premium imagery, subtle animation and a mobile-first experience. The principal CTA throughout the site should be **Discuss Your Project** or **Start a Conversation**. SEO architecture should be incorporated from the beginning. All service descriptions must remain consistent with the company's licensed activities and must not imply direct provision of separately regulated services.

15. Licence Foundation

The content direction is based on the activities shown on the supplied RAKEZ licences: **Project Management Consultancy, Marketing Management, Commercial Brokers, and Wholesale of Restaurants and Kitchens Equipment and Outfit Trading**. The licence also notes that required approvals from competent UAE government authorities must be obtained where applicable.

Recommended launch: six focused pages first. Add Insights / Opportunities later as an SEO and thought-leadership layer.
